

Jake Schnell Promoted to Sr. Operational Process and Integration Manager

September 10, 2013

Jake Schnell was recently promoted from Carrier Procurement and Operations Manager to Sr. Operational Process and Integration Manager.

A logistics industry veteran, Jake spent eight years at a large 3PL in Carrier Sales before joining XPO. He was the first person hired for the Charlotte Mega Center in February 2012.

Since then, he's become an integral force at XPO in managing processes and providing valuable employee training. Jake operated as point of contact for acquisitions and new branches, played a role in establishing all rules and policies in his department, and developed training materials for procurement, sales, and logistics coordinators. In addition, he served as the operational and brokerage process subject matter expert (SME) on the Operational Excellence Project. Duties with this project included training 200+

employees in new processes and managing the paperwork SWAT team to effectively clear out aged accounts receivable and accounts payable.
